

## About us

Dr. William J. Miskelly William J. Miskelly, D. C. graduated from Logan Chiropractic College, St. Louis, MO in 1974. He came to Fort Wayne to practice on the South side of town and 20 years ago moved to the Waynedale community. He specializes in difficult cases of neck, thorax and lower back subluxations, "Subluxations are a bone out of place pinching a nerve."

William J. Miskelly, D.C. of Miskelly Chiropractic Center, P.C., is helping people feel better and live more productive and active lives. William J. Miskelly, D.C. and staff offer an effective way to provide relief from pain associated with headaches, neck and back pain, sinus and allergy problems, fatigue, irritability and many other stress-related conditions.

New patients at Miskelly Chiropractic Center, P.C. receive a thorough health history and comprehensive consultation. The next step is an evaluation with the Pro-Adjuster® System. The Pro-Adjuster is a computerized analysis and treatment instrument that provides gentle Chiropractic care. A report of findings is reviewed with our patients and a recommended treatment plan is discussed with each patient.

The patient proceeds through the treatment plan in an environment of caring and support. The highest quality of patient service is provided during every step of the relief and rehabilitation processes. Educational information, providing long-term benefits to the patient, is also included during the treatment phase.

Call Miskelly Chiropractic Center, P.C. today to see how you can benefit from the care and experience of their team!
