

ProAdjuster

New patients at Miskelly Chiropractic Center, P.C. receive a thorough health history and comprehensive consultation. The next step is an evaluation with the Pro-Adjuster® System. The Pro-Adjuster is a computerized analysis and treatment instrument that provides gentle Chiropractic care. A report of findings is reviewed with our patients and a recommended treatment plan is discussed with each patient.

The patient proceeds through the treatment plan in an environment of caring and support. The highest quality of patient service is provided during every step of the relief and rehabilitation processes. Educational information, providing long-term benefits to the patient, is also included during the treatment phase.

Call Miskelly Chiropractic Center, P.C. today to see how you can benefit from the care and experience of their team!
